

Tree Wraps

Stock and Customized Solutions

Think SATO for All Your Tree Wrap Needs

Tree wraps provide quick information to help consumers choose their ideal tree. Make customers become "knowledgeable experts" with informative tree wrap designs.

Easy to Read

Seeing information at-a-glance helps customers make an educated selection.

Simple to Use

Wrap around the tree base and staple—there are no messy glue strips to fight.

Proper Planting and Care Information

Planting visual aid explaining rootball placement in relation to soil surface.

Reduce Returns and In-Store Credits

Fewer complaints and returns; customers know what they are buying and how to care for it.

Satisfied Customers Will Come Back for More

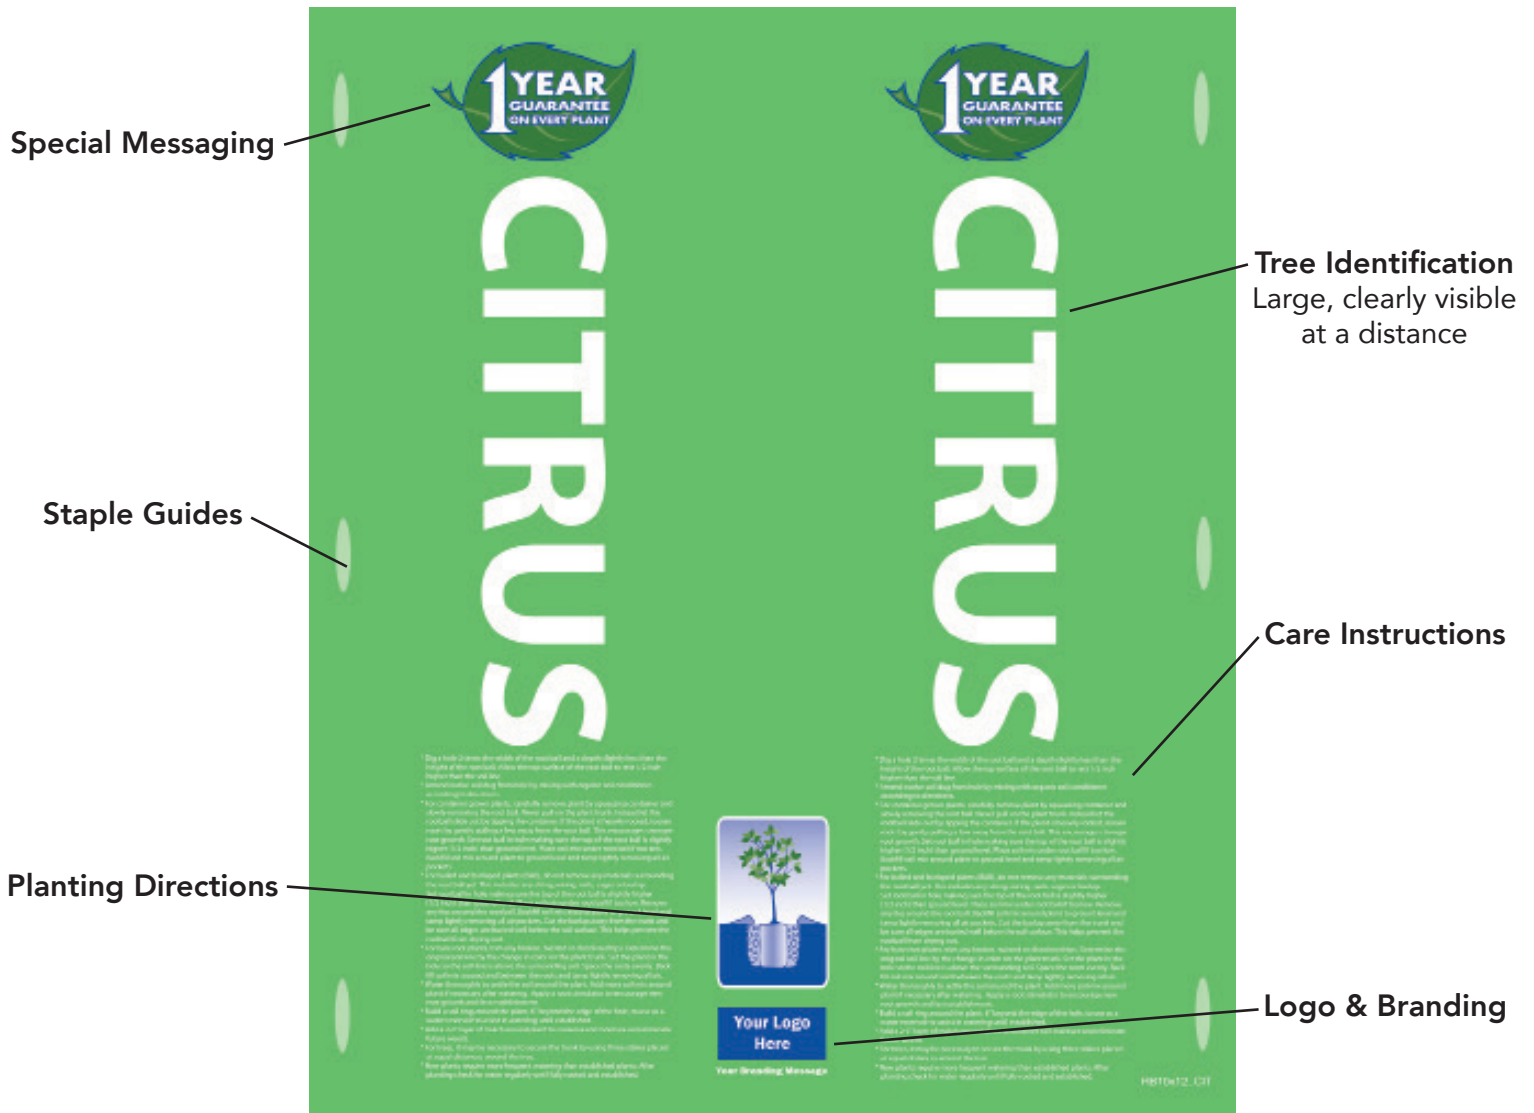

After a great experience with their tree purchase, customers will return for other products and services.

Custom or Stock Designs

Stock designs are available for your convenience. SATO designers can also create custom designs to include your company logo and branding.

SATO Tree Wrap Features

The SATO Solution for Your Retailers

- **The Right Service and Support:** Custom tag and label design, printer service and readily-available SATO staff specialized in retail solutions.
- **The Right Printing Hardware:** SATO printers are durable enough for harsh environments and easily handle material thickness up to 24 mil at speeds up to 10 ips.
- **The Right Software:** SATO TAGGIT™ Pro Labeling Design software solutions offer a scalable and versatile set of tools to meet all design needs.
- **The Right Solutions:** SATO offers a full range of tags, slip-ons, stakes and labels. If SATO has not yet developed the solution you require, our designers and engineers will work with you to create it.
